

Sustainable Development Policy

Actron develops sustainable development policy specifically as follows in order to pursue sustainable management and development, fulfill social needs, norms and values, contribute to the community, and enhance the social values and relationships with customers, employees, investors, governments, suppliers, communities and other parties.

- Implement and optimize the corporate governance.
- Protect and regenerate the environment.
- Achieve corporate commitment and insist on integrity.
- Expand social participation to unleash long-term impact.
- Provide a safe and healthy working environment to increase the benefits to the employees.
