

Procurement Policy

1. Comply with a green procurement policy, require suppliers to practice sustainable environmental protection principles and implement corporate social responsibility with suppliers.
2. Improve supply quality to reduce defective products and reduce the generation of sewage, exhaust emissions and waste, and enhance the sustainable value of the supply chain.
3. Use recyclable packaging material to conform to the green concept.
4. Comply with international conventions, government decrees, and company regulations.
5. Establish partnerships with suppliers in good faith.
6. Innovate and improve with suppliers to jointly enhance the efficiency and effectiveness of the supply chain.
7. Abide by the principle of decent management, do not allow or accept improper benefits and gifts directly or indirectly.
8. Act in accordance with international environmental protection regulations in response to global hazardous substance regulations and eco-friendly product specifications.
